In the event of making a warranty claim, it is up to the customer to notify Nevers Industries as soon as possible. Nevers Industries reserves the right to examine the warranty claim and provide an appropriate response. Nevers Industries will then, as our sole obligation, either repair or replace parts, materials, components or other directly associated systems provided by Nevers Industries and any other approved incurred expenses due to the warranty issue. In the case of irreplaceable custom materials, unique processes or vendor-supplied components no longer supported, we will provide alternate, yet equal, solutions.

Any structural modification, dismantling and reinstalling, or improper use or storage of our products may void the warranty. Monthly, wood surfaces should be cleaned with a soft cloth using a quality wood cleaner. Following cleaners' directions, slightly dampen soft cloth and wipe in direction of wood grain. Dry the wood surface with a dry, soft cloth. Ammonia or any type of oil should be avoided.

Standard Wood Finishes

Nevers' standard finish is a multi-step process involving dyes, stain, sealer, toner, and lacquer. For added protection and durability, the final topcoat on all tabletops is catalyzed lacquer. All finishes have been formulated for maximum clarity to enhance the natural characteristics of each wood species. Standard finish is open pore. Semi-filled and filled finishes require an upcharge and may extend the lead time. Please contact Nevers Industries for price and delivery date.

Custom Wood Stains and Finishes

Virtually any wood finish or color sample can be matched to your specifications. A finish sample or stain sample is required from the customer before the process of matching approval can begin. The upcharge for custom finishes varies with the type of finish and with the quantity ordered.

Note: COLOR VARIATION WILL OCCUR IN THE GRAIN OF ALL WOOD SPECIES.

This is an inherent characteristic caused by the annual growth rings found in all hardwoods and the way the boards and veneers are cut across these growth rings. In some species, this color variation is very subtle. In other species this color variation is obvious and at times radical.

The process of finishing hardwood veneers determines whether these variations are enhanced or subdued. Natural finishes will show color variations in the grain and enhance the beauty of the wood to its fullest extent. Other stains and finishes tend to blend in these variations to some extent dependent upon the depth of color and the method of application.

Standard Laminates

Standard, non-premium Wilsonart, Formica, Nevamar, and Pionite Laminates

How to Specify Stående Tables

In general, Nevers tries to code specifying as follows: size part number, edge profile, base information, options, and power. There may be other considerations depending on product type. Nevers will need to know the following items to process an order help us create a STÅENDE table quotation or to place an order.

- Indicate model number of the table (EX: **C/SLT/06042/H30**)
- Choose top and metal base combination code (EX: LW)
- Indicate veneer or plank finish code (contact us for Wilsonart laminate desired)
- Select options for your table by code: (EX: PC11/AA)
- Add other options as desired
- Separate codes with a slash

Finished Order Specification Example:

C/SLT/06042/H30/ ___#2___/___#3___/ ___#4___/ ___OPT A___/ ___OPT B___

#1 = Part Number | #2 = Top | #3 = Base Finish | #4 = Power Option | Option A | Option B

Note on Grain Direction of Tops for Wood or Laminates:

With STÅENDE tables, the grain of the wood or laminate top goes in the direction of the longest dimension (long grain) up to tops ten feet long. After that length, grain direction runs with the shorter dimension (short grain). This is done in consideration of matching veneer flitches. Upon request, we can determine if grain directions can be matched to another preference.

Standard STÅENDE tables are not available over 10' in length. STÅENDE tables may be custom-ordered in with dimensions longer than 10'. This will change grain direction. Please contact Nevers directly for more information on custom STÅENDE tables.
